REFERENCES. (For those who do not know me.) Poughkeepsie, National Bank; The Commercial Agencies; My Postmaster; and 300,000 customers.
Dear Friends:—The very best thing about my seed business—what I value most—is the longest list of good friends I have made. A few of the kind letters from my customers are given in this book. I only wish there was room to print hundreds more. I don’t know of them personally, but they are a part of mine and helping on the success of my seed business. No words of mine can ever express my gratitude to all you for your kindness.

A Farmer’s Son who Followed the Plow.

I am a Farmer’s Son. I grew up on the farm—far from railroads, and the cities maddening crowds. My Ancestors were Quakers—all Farmers from time immemorial. I grew up among Farmers and Gardeners in fertile Dutchess. Early indeed did I learn this truth—that “men do not gather ligs of thistles,” and that high grade, CAREFULLY SELECTED seeds are absolutely essential for success.

This Kind Only

have I been growing and selling for over 25 years. The seeds business is my sole life’s work, and I am sure I understand my business. My heart is in sympathy with honest planters everywhere. I personally attend to your orders, and read all your letters. I have personally selected everything in this catalog—for your best success and profit.

I am not a City Seedsman

whose business is done by disinterested clerks who neither know or care anything about gardening. I do not charge high prices to meet the enormous expense of business done by mail. The gorgeous lists of bulky, flashy catalogs, and advertising is all saved for you. ’Tis for this I can give YOU more and better seeds, far better discounts, and Premiums of such great value they always excite wonder and astonishment.

Best of Mailing Facilities.

I am situated on the banks of the beautiful Hudson River—right among the most expert Farmers and Gardeners. Five mails each way every day.

Please send me Your Photo

when you send in your order, or photos of your family, children, home, garden, stock, scenery around you, etc. You may be sure I will return the favor at once. I feel deeply interested in all my customers—I cannot tell you how much. I carefully keep every photo I receive,—treasuring them very highly. Be sure and write your name and address on back of every one, and later may remember you again with something nice. Here is a new engraving which shows, how your seedsmen looks at the present time. With thanks and best wishes,

A.T. COOK

Remittance Must accompany each and every order. I keep no books or book-keeper.

I Never sell on credit or commission, or C. O. D. Please write on stamped, self-addressed envelope, always stating grade of seed wanted, and I will send you a catalogue.

No One can give half as good bargains as I do and do business such an expensive way.

A Premium is a special offer, only for a few days—(till the seeds are delivered.)

The Premiums or Discounts are on EVERY-THING. They are so liberal and always sufficient to interest you.

All my Selected, High Grade Seeds are sold in large packets only—never in bulk.

I Can only furnish the seeds, etc., offered in my catalogue; they are the very best that grow.

No Seed is turned out but the seeds are always fresh and new—best quality, sure to grow.

This Catalog contains my BEST and ONLY terms. They were never equaled by any seedsmen.

When Premiums are wanted, full catalogue price must be paid.

No Premium can be sold for less than quantity stated. I have no 6 or 8 packets of the I see varieties.

I Never sell my Premiums, but give them free or for orders. All Orders are sent promptly.

All Seeds are put up in large, handsome packets, with full directions for planting, etc.

MY SEEDS are all tested and known to be extra pure and sound. I will give you full guarantee.

No Order filled for less than quantity stated. I have in 10,000 packets of the 2,000 varieties.

BRIGHT THINGS in (and all) Club-racing is VERY easy. Your own order of 6 or 8 packets, count same as any.

Try your parents for a big order to start with.

It is the custom of many to order the Premiums or Discounts taken. I always send a PREMIUM COUPON showing the full value toward any Premium you may desire. These Coupons are very valuable. Do not lose them.

Imported seeds are neatly packed with ink, and given names, and address every time.

ORDERS FILLED PROMPTLY. Orders are always filled with great promptness, but are sometimes delayed a few days, owing to the great haste to complain. Wait a little, and before you write ask your Postmaster to look well for your package, as they are often too large for the boxes and may be laid aside and overlooked. If necessary to write be sure and state WHAT you ordered. WHEN, also AMOUNT, and in WHAT WAY you remitted, so it can be traced, which will sometimes bring you the right and send it to every order. I have orders I cannot fill because I cannot GUESS where they go. Write plainly with ink, it may save you a great deal of trouble, and send your Catalog; they cost money. Give the extra one to your friend.

ALL CLUB ORDERS are sent direct to Agents. Put your name and address only on the order to save postage. Should you wish part mailed to distant parts of the United States, Post Office orders, write such orders, name, and address, each on A SEPARATE SHEET.) $3.00, clubs and under for premiums must be in one order. Larger clubs may be sent in two orders if necessary—but be sure and say in the first order that you are working for a premium. A HINT. Many Club Agents offer to take orders, etc., in payment when parties have no money—and thus largely increase their orders. These are sold for cash at any grocery store, or drug store.

MISTAKES. With all my care I sometimes make mistakes; so does everyone. I earnestly desire to correct every error in this life—for I can never return to do it. If everything is not right please do me the kindness to write and explain—pardonably if you can, but write anyway. You run no risks. IMPORTANT TO ALL. Three packets for 25 cents, may be ordered of any 100 variety—even when a premium or regular discount is taken. &s; Club Agents be sure and mention this discount when taking orders.

TO CANADA CUSTOMERS. I have a host of Canada customers who have found my extremely early, hardy varieties admirably suited to their short seasons—producing the most productive crops. I send everything by mail, fully prepaid, but do not pay duty which is sometimes required on some of the goods. This is better if any articles are too little. &s; I always add free, enough Premiums and Extras to pay this several times over. I PREFER remittance by Money Order—order in Canada stamped "Canada." On EVERYTHING, my Premiums or Discounts are on EVERYTHING OFFERED. &s; No other Seedsmen do this. No other Seedsmen give as liberal premiums, or as big Discounts—or as large Premiums.

MY WAY OF advertising, and I KNOW MY FRIENDS who get the benefit WILL HELP ME—as they always have.

Is Your Name Cook?

"We may live without poets, music and art, but we cannot live without Cook. We may live without friends, we may live without books, but civilization cannot exist without Cook." I much desire the name and address of one person in each family in the United States by the name of "Cook." Somehow it seems to me that all Cook's especially those who knew the Cooks, are greatly pleased.

Golden Tankard Mangel-Wurtzel Beet.

This is decidedly the finest mangel in cultivation, and best for dairy use. Of very large size, clean and handsome, easily pulled as it grows two-thirds out of the ground; will bear close planting. The flesh is rich golden yellow, exceedingly nutritious. It is early, hardy, and a very heavy cropper. The Golden Tankard Mangel quickly takes the lead of all other varieties. It contains a large percentage of sugar, and is much relished by milch cows and sheep. One of the best of all "Cook's." Farm owners should give root crops more attention. The wonderful results of feeding cattle, especially seeds with the health and condition of the animals, and in the greatly increased yields of rich, golden butter in cows. Do not miss planting a good size patch. It will be dollars in your pocket.

Selected seeds in LARGE PACKETS 6 cts. each, 6 for 25 cts.

Improved Purple Top Yellow Rutabaga.

This variety cannot be too highly recommended, and no sort will produce such handsomely formed roots, or greater yield. It is the result of many years of careful selection.

Wm. M. Johnson, of Tampa, Fla. — The packet of Potato Seed you sent me did well. Some of them 2 inches or more long—two hills had 6 large potatoes. 600 lbs. I never saw so many different colors and shapes.

Westfield, N. J., Feb. 14th, 1895.

My Dear Always Yours True Cook. Your Honest Catalog has come again. Every year adds to my faith in Cook's seeds. Those Vegetable Peach, Domestic Coffee, and Cinnamon Vines were more wonderful, more pleasing, and more fascinating than ever. The Cinnamon Vine was the marvel of the city, and the peaches and coffee not only gave large crops but attracted the attention of the whole section. All other seeds did well. The Perfection Farming, which came to our table for dinner today, deserves especial mention. In more an orchard-cultivator experience with experimental gardens, nothing in any way of seeds has ever pleased me more, and if it will do you any good you can say that Cook and his seeds are guaranteed by me.

ENCOURAGE GOOD HEALTH

By the free use of seasonable vegetables. Nearly every vegetable supplies something needed by the system. Celery, Rhubarb, Spinach, Lettuce, Asparagus, Saffron, and Onions, are expected from the farm. Use Vegetables freely. They will cure nearly all the ills that flesh is heir to.

No poisons are necessary—all deadly drugs—and the much advertised patent or quick medicines—nearly every one is the vilest decoction of alcohol, opium, or morphia. They will only increase your trouble. Their persistent use leads to drunkenness—or the mad house. Don't touch them. Nature alone cures. Let the temperature of the earth be not too hot or too cold; breathe abundantly of pure, fresh air day and night, winter and summer, and 99 cases in a hundred you will get well, and keep well.

---PEACE ON EARTH, GOOD WILL TO ALL.
NEW BANANA MUSK-MELON Crows Over 2 Feet Long.

This curious new variety originates with one of our best growers in South Jersey, and is pronounced by him the most profitable variety he has ever grown. He realized an average of forty cents each for his entire crop, as they were eagerly sought after in the Philadelphia markets on account of their great oddity of shape and appearance. They look and smell like overgrown bananas. They grow from 20 inches to 2 feet long, are very productive, with deep yellow flesh, by many preferred to any other variety. They have a remarkable and delightful fragrance, one melon will scent the house. A great curiosity, and sure to attract attention.

NEW PROLIFIC TREE BEAN.

A new and valuable variety, and by far the most prolific dwarf bean known: growing about twenty inches in height, branching out in all directions, bearing pods in marvelous profusion, and so high that they do not touch the ground, enabling it to stand a wet spell without injury. They often yield one hundred bushels to the acre, and a single plant has produced the over-all yield of 390 full sized pods. Plant in rows 3 feet wide and 12 inches apart in the rows, one bean in the hill. Do not crowd them. They are a shell bean to be used for winter, pure white in color, and a prospective bearer. Extremely profitable. They are of fine flavor.

Packet 10 cts., 5 for 25 cts.

ROBERT SMITH, York Co., Maine, writes—Your New Pro- lific Tree Beans outyield anything I ever saw, and I must have some more.

D. K. BEAR, Middlesex Co., Mass., writes—The Prolific Tree Beans produced the biggest yield I ever saw. This year produced 8 quarts good measure. I shall plant a large piece this year.

Mammoth Salsify, or Oyster Plant.

A vegetable that is sure to be called for where it is once introduced. It is a good substitute for oysters, being very wholesome and nutritious. The roots are either boiled or mashed, and made into fritters, in which form they are delicious. For an oven, cut the roots into small pieces, cook until tender, then add the other ingredients same as for oysters. The roots are perfectly hardy; may remain in the ground all winter. No garden should be without this noble vegetable.

Packet 5 cts., 6 for 25 cts.

From EDWARD BEARD, Economy, Ind. We have used thy seeds for three or four years and will say that we have never dealt with any seedman that sent out such good seed, so neatly packed, and in such liberal quantity.

Extra Curled Cress or Peppergrass.

An appetizing relish of fresh piquant taste, often added to lettuce and other vegetables for variety. It is very quick growing, dwarf and compact; leaves finely cut and feathered, Ornamental, easy to grow, pungent; very refreshing.

Packet 5 cts., 6 for 25 cts.

NEW INTERMEDIATE CARROT.

This is certainly the best main crop carrot. It is a tremendous yielder. Of deep orange color, large size—often 3 or 4 inches in diameter and 10 or 12 inches long, very regular and smooth, and the most uniform of all. For private planters and truckers it is ideal, being of the highest quality—and for stock feeding it is of the greatest value, its yielding capacity being perfectly enormous. Selected seed. Large packet 10c., 3 for 25c.

COLDEN QUEEN TOMATO.

One of the very best tomatoes ever introduced. It is solid, very smooth, free from ridges, large in size, ripens early, and is by far the most beautiful yellow variety ever seen. A veritable giant among Cucumbers, and merits the highest praise. Enormously large and handsome, many specimens growing from 20 to 30 inches in length. It is a very strong grower, fruit straight, smooth, uniform, and produced in great abundance. It has few seeds, (not one-fourth as many as other sorts) quality excellent, crisp and tender. A very fine pickling variety, and unexcelled for slicing. Every one should grow this remarkable novelty. No variety will equal it for exhibition. It will be a wonder to yourself and all beholders.

PERENNIAL—OR EVERLASTING PEAS.

The Improved Perennial Pea—to my fancy is one of the prettiest of all climbers that grows, and is peculiarly adapted to our climate. They live rightalong year after year, and bloom continuously through the long seasons from June to Sept. Their magnificent clusters of flowers are beautiful indeed, and specially desirable for cutting. They are perfectly hardy everywhere, thrive well in any soil—even if poor. Perennial Peas are deservedly popular where known. They are a very rapid grower—attaining a height of 8 to 10 feet—quickly covering a trellis or unsightly walls, stumps, etc., with a mass of vines, loaded with bright blossoms. You will not regret planting a liberal lot of these everlasting climbers. I offer choicest mixed colors. Large Packet 10 cts. 3 for 25 cts.

Protect the Birds. Encourage them in every way. They are the Farmer's and Gardener's best friends. They work for us, and sing for us from morning till night. They are God's own messengers of love. They fill our homes, our meadows, and the woods with heavenly music. Do all you can to encourage them by precept and example. Put up houses for the wrens and blue birds. It will pay. Feed them in winter. I feed them every day, and they come from far and near. It is a delight to see them. I am sure no lady customer of mine will be guilty of the cruelty of wearing birds on their hats, and I earnestly pray that each one will do their utmost to convert others from this barbarous practice. A. T. Cook.

EXTRA PROLIFIC POP CORN.

This remarkable new variety is the most astonishing yielder ever found among Pop Corn. Its enormous yields seem almost fabulous, for it produces 4 to 12 good ears on every stalk. Pops well soon as cured. Ears are 6 to 8 inches long, filled with large colored grains—very handsome. Stalks grow 6 feet high. Prof. With-

BROAD LEAVED SAGE.

Sage is most extensively used of all herbs for seasoning. The leaves and tenn- d top are used in making stews, soups, etc. Sage has many medical properties. Sow early, and thin to 12 inches. A bed will last many years. This is the best kind. Have you a bed of Sage? If not now is a good time to plant one.

Select Surehead CABBAGE.

"ALL HEAD, AND ALWAYS SURE TO HEAD."

This magnificent cabbage is a most valuable contribu- tion to your seeds. The heads are very large, round, flattened on top, marked a bly uniform extra hard firm, and fine texture. May be planted closer than usual as it has so few outside leaves. This makes it extremely profitable to grow. A Rose of Yates Co. N. Y., grew a head of this remark- able Cabbage of the astonishing weight of 44 lbs. If you want a cabbage that is practi- cal, "Surehead Cabbage" is always sure to head (even under adverse conditions) you will find it in the Surehead. It is a late variety, in a way that bares best of its, and its extra quality renders it especially desirable for Home use, and select retail trade. Extra Selected Seed—saved from the best heads. THE ASPARAGUS BEET.

This delicious species (also called Sea Kale, or Swiss Chard) is grown for its leaves only. The leaves are used like spinach, but the great value of the plant is its large, fleshy, mid-rib of the leaves which are cut and cooked like asparagus, and are EXTRA FINE. As a substitute for asparagus nothing could be better.

Ready to use in 2 months from planting and may be used continuously all summer and fall. It is a most valuable vegetable—a good thing to miss, and I hope every one of my customers will plant it. Pkt. $0.25.

EXTRA DOUBLE CURLED PARSLEY.

Parsley is a flavorful herb of highest culi- nary value. This superior variety has beautiful, mossy curled and crimped leaves, light brilliant shade of green, of extra fine quali- ty. No one planting it once would ever be without it.

The Leaves can be dried for winter use—take up a few plants and store in the cellar. Packet 10 cts.

"Better to pick a small bouquet,
And give to your friend this very day,
Than a bushel of roses white and red,
To put on his coffin when he is dead."

NEW EXTRA EARLY SUGAR CORN.

The best early—and the earliest of all Sweet Corn. Very productive and sweet. Ears good size for so early a variety, being 6 to 7 inches long. Usually two ears grow on a stalk, and sometimes 3 or 4. This is the sweetest of all early corns and should be in every garden.

"Especially valuable for the market gardener, to completely control the early market.

Pkt. $0.25, 3 for 25 cts.

"I planted your Extra Early Sweet Corn on April 20th, and had roasting ears on June 26th, which was 4 weeks earlier than my other corn."—Mr. J. R. DAVIS.

Forest City, Ark.

"Your seeds are perfect—every one seems to grow. Your Extra Early Sweet Corn is the only kind that will mature here."

Mrs. C. E. HANSON,

Tangier, Nova Scotia.

You May be Disappointed.

In not finding in my catalogue varieties that are largely boomed by other seedmen. If they are omitted there is a reason for it. Is it not cheaper for you to be disappointed now than at the harvest time? All unworthy sorts are left out of this catalogue.
Giant Summer Crookneck Squash.

This new strain is even earlier than the common variety, while the squashes grow to an extra large size—from 18 inches to two feet long, and of finest quality. They command an extra price in all markets—One grower reports $25. worth, sold from 4/ acre. This is the best flavored and finest of all summer squashes. Per packet 5 cts.

Strawberry Husk-Tomato.

TRUE HEADQUARTERS SEED.

These unique tomatoes are a wonderful fine fruit, and grow from the seed in 50 days. They are simply superb for canning, preserving and pies; everyone calling them most delicious. If left in their husks, and stored in a cool, dry place they

Keep Fresh All Winter.

Dried in sugar as raisins or figs, and to use in fruit cake etc., they are unexcelled. They are a handsome golden color—the size of large cherries, and enormous productive. They have an exquisite flavor. Many say

"Better Than Strawberries" to eat out of hand. No one ever gets tired of them. They are hardy everywhere, and produce enormous crops even where other fruit is a failure. Packet with full directions for planting. use of fruit etc., only 10 cts.; 3 for 25 cts.

EARLY WINNICSTADT CABBAGE.

A well known and very popular variety, heads large, decidedly conical, remarkably solid and hard, even in summer. This is a sure leader, a good shipper, and suffers less from the cabbage worm than any other sort; valuable for both summer or winter use. Market Gardeners and all others desiring a choice strain of this desirable cabbage should try my selected seed.

Every person who receives this Catalog should surely take advantage of the marvelous opportunities for making money, or securing valuable Premiums free of cost. Please see your Club Agents, and bright Boys and Girls of my matchless inducements for orders.

The Great Prize Pumpkin.

KING OF THE MAMMOTHS

This grand, colossal variety is without a rival: it astonishes everybody by its mammoth size and heavy weight. Indeed no other pumpkin has ever attained such enormous weights, or been awarded as many prizes. Think of it—a single pumpkin weighing 208 lbs. (See Cut.) Is this the greatest of all pumpkins? In France they have been known to still greater size, and as many of my customers have as good, rich soil—as highly productive, as any there is in France or anywhere else on the face of the earth, I see no reason why they cannot be grown much larger here. The flesh and skin of this monstrous pumpkin is a bright golden color, very fine grained, and of excellent quality. Notwithstanding its enormous size, it is one of the best pie or table pumpkins ever grown, and is a splendid keeper. I hope all enterprising pumpkin growers will give this variety a trial. You will be sure of a prize at your County Fair. Full directions on every packet, giving best methods of planting etc. to secure the largest specimens. See offer below. Extra seed saved from selected large pumpkins.

Packet 10 cts.; 3 for 25 cts.

Mơn-Superior Seed is the very best I can grow or get. None are cheaper QUALITY considered. I do not try to compete with foreign trash, or that grown from scallions and refuse of cabbages. I could sell such for 2 cts. per packet—but they would be dear as a gift. With an experience of 25 years in gardening I know the value of high grade seeds. I have in the past, do now, and always will maintain this high standard.

Dars No Use Talking Cook’s Melons Am De Best.

Flowers are God's Jewels for Earth's Ornament.
New Winter Pineapple Muskmelon.

The Winter Pineapple differs from all other muskmelons in shape and appearance of the fruit and the melon weigh from 10 to 12 lbs. each. It is a most valuable novelty. These splendid melons do not ripen as quickly as the early varieties. They are a delight to the eye, as well as the taste. With a little care in handling, they will keep sound and will not lose their flavor for several months. The flesh is unusually thick, solid, and melting; a light green color and has the most delightful flavor, imaginable, being rich, spicy, and delicious, with an agreeable pineapple taste.

The artist (Mr. Blanch, of Phila.) who has made engravings of, and tasted nearly all the new melons introduced in the past few years, says "Winter Pineapple is decidedly the finest flavored muskmelon I have ever eaten."

Large Packet 15 cts., 3 for 25 cts.

5¢ Also an elegant pot plant.

I desire to call attention to these enthralling lovely flowers. They are a superb mixture of wondrous beauty—over 50 varieties. They comprise an extraordinary assortment of colors, shades, and markings. The Petunias, I call the "Peoples Favorite." They will bloom in a month or so after planting. You will continue to produce a perfect cloud of brilliant blossoms until hard frost. Those who love flowers should plant these beauties. Pkt. 30 cts., 3 for 25 cts.

Mr. A. T. Cook—Your Petunias were a perfect delight all the summer long. The blossoms were immense, and of the most beautiful tints. They fell when they were taken into the house, and they bloomed continuously all winter. Mr. Cook, Alabama.

FLOWERS.

Tennessee Sweet Potato

"God might have made the earth bring forth enough for great and small, for north and south; and the oak-tree, without a flower at all."

He might have made enough, enough for every want of ours.

For luxury, medicine, and food.

And yet he made no flowers.

Our outward life requires them not.

Then wherefore had they birth?

To minister delight to man.

To beautify the earth!

To comfort man to whisper hope.

When ever his faith is dim.

For he careth for the flowers as well as for the horse.

Pumpkin

This Pumpkin is of medium size, rear shaped, flesh thick, cremy white, fine grained, dry, and of most excellent flavor. Hardy, productive, a good keeper. The best variety for pies, and equal to many squashes for cooking.

ADDRESS, A. T. COOK, HYDE PARK, DUTCHEY CO., N. Y.
Colorado Preserving Citron.

This is quite distinct and far superior to the ordinary citron, the seeds being a light green color. It is immensely productive: one vine produces 22 fine melons, weighing from 10 to 20 lbs. each. The flesh is very firm and solid with few seeds, and makes beautiful, clear, transparent preserves of surpassingly fine flavor. All should plant this citron for market and home use. It is a grand seller and will make you money. Pkt 5 cts.

Early Snowball Cauliflower.

The earliest, the surest header, the best and most profitable of all cauliflowers. No other variety comes near it. Snowball cauliflower is the standard everywhere for superior quality with all market and private gardeners. It is a very compact grower, and is absolutely certain to form a good sized head when the conditions are right: is good the entire season, and is rapidly driving out the later sorts for fall use. Cauliflower. Easily raised, and every family should grow a supply. $5 My seed is American grown and very choice. Packet 15 cts. 2 for 25 cts. 5 for $1.00.

WHITE CHINESE WINTER RADISH.

A magnificent, new Celestial variety, of enormous size and exquisite flavor. By far the best and most tender for late fall and winter use. The flesh is always crisp, mild and juicy—very refreshing. These giant Radishes grow from 10 to 15 inches long and 5 to 6 inches in diameter. The skin pure paper-white—very handsome. Flesh always crisp, mild and juicy. Easily grown and an immense yielder. Winter Radishes deserve more attention. They are a great luxury in winter, and always sell at good prices.

Plant about July 1st, and pull late, and store in a cellar in boxes of moist earth. Large Pkt. 10 cts. 3 for 25 cts.

New Palmetto Asparagus—True Stock. DECIDELY THE BEST IN THE WORLD.

This new variety is the finest ever cultivated. After years of exhaustive testing, it is pronounced by all to be far in advance of all others. Its larger, earlier, far better flavor and double the size. Indeed this variety is so superior that gardeners are leaving out their old sorts and planting with Palmetto. It is markedly tender, rich and buttery when cooked. No other can compare. Every family should have a supply of this very beautiful and delicious vegetable.

My seed is pure and true. If well cared for will produce larger and finer asparagus in TWO years than other varieties at five. Beware of spurious seed.

Don't be deceived as to expense and bother of buying plants when you can get such a quick and easy grower as this.

From the Editor of American Garden. TRULY A GIANT AS PROVED by bunch of short shoots of Palmetto Asparagus exhibited by a Phila. Gardener, beats anything ever heard of. It weighed 8 lbs— the growth of only 3 days.

A. Winstead, Wholesaler Co., N. H., writes—Your Palmetto Asparagus and Pop Corn are both truly wonderful, I have planted your seeds seven years and find them the best of all. Your packets are twice as large as any other, and you always send so many extras.

True Rocky Ford Muskmelon.

The advent of this valuable variety has done more to popularize muskmelons than any other sort. Over 20 varieties of these celebrated melons have been shipped from Rocky Ford, Colo., realizing enormous profits. Unquestionably the best early Muskmelon.

An Amazing Yielder.

A Healthy Vigorous Grower.

Always Brings the Highest Price.

Enormous prices are paid for this variety to the exclusion of all others. Every market and home gardener should plant it largely. No other melon can bring you so much money. My seed is Pure and True, and selected with Extra Care. Beware of spurious seed—there is much of it offered. Pkt. 10 cts. 3 for 25 cts.

PLANT FLOWERS.

Plant flowers carefully, from house to the roadside, to make every passer-by gaze with delight. You are paying for bouquets or environs in your tresses, and beauty home from morning 'til night.

FROM PROF. C. C. GAINES, President of the World Renowned Eastman National Business College.

Potomac, N. Y., May 27, 1909.

Mr. A. T. Cook, Dear Sir:—I write to acknowledge the receipt of your Post Cards. These are all very attractive, and I want to congratulate you on the work you are doing in the interest of Temperance.

When a man puts a thing of this kind in his life he always takes strong hold on immortality. He will tell himself in some measure to a place in the society of those immortal dead who live again in minds made better by their presence. In looking over your cards I had distinct feeling that would like to do some good in the same way, and may yet find occasion to work out some plans in imitation of your good example.

With sincere good wishes,
Very truly yours,
C. C. Gaines.

White Plume, Self Blanching Celery.

The Earliest Variety.

This is the best of the so-called Self Blanching varieties, as it needs but little banking up. Its eating qualities are equal to the best of the older sorts being tender and crisp with a pleasing nutty flavor, while its white feather-like foliage places it ahead of all others as a table ornament. Potomac, N. Y., May 27, 1909.

Mr. A. T. Cook, Dear Sir:—I write to acknowledge the receipt of your Post Cards. These are all very attractive, and I want to congratulate you on the work you are doing in the interest of Temperance. When a man puts a thing of this kind in his life he always takes strong hold on immortality. He will tell himself in some measure to a place in the society of those immortal dead who live again in minds made better by their presence. In looking over your cards I had distinct feeling that would like to do some good in the same way, and may yet find occasion to work out some plans in imitation of your good example.

With sincere good wishes,
Very truly yours,

**POWELL’S PROLIFIC POLE BEAN**

This wonderful new variety, first introduced by me, originated in North Carolina—a few seeds were kindly sent to me for trial by Prof. R. S. Powell, who writes:—“They are an extraordinary snap bean, surpassing anything ever seen in our section—bearing profusely, and continuing until frost; they are very tender and eatable—spry bills are enough for a family.”

I have found the bean a most rampant grower, one plant filling a pole with a mass of vines densely loaded with luscious beans. I do not claim too much when I say they are more than twice as productive as any other variety in existence. They are a solid mass of pods from the bottom to top of the pole. The handsome green pods average 8 or 9 beans to the pod, growing very uniform, about 14 inches long, very thick, fleshy, tender, rich and buttery: possessing an exquisite flavor when cooked—many calling it without exception the very best bean grown. For it is a late variety and continues in bearing so long it might well be called “everbearing.”

I offer it in packets.

Packet ten cents, 25 cts. for.
MAMMOTH MELTING SUGAR PEAS — Most Delicious of All.

Blightly named. The sweet, brittle, succulent pods are cooked same as string or snap beans — pods and peas eaten together. A "dish fit for a King." Excels all other Sugar Peas in size, ten- derness and sweetness of pods, and delicious flavor. These lus- cious peas are too little known.

Every one should grow them.

Deliciously Rich, Tender, Prodigiously Prolific.

They contain so much sugar, starch, and gluten, making them most nutritious. Height of vines 4 to 7 feet, bearing their immense pods in the greatest profusion. Every garden should have a liberal supply of this superior vegetable. Peas are very scarce this year, but I have a splendid stock, as well as all other seeds. Remember I send EVERYTHING by mail PREPAID and guarantee safe arrival.

Per Packet 10 cts., 3 for 25 cts.

NEW EARLY WHITE VELVET OKRA.

Okra is a fash- ionable Southern vegetable, of the easiest growth, and matures first season even in the extreme north. Pods are used when young and tender, are excellent for soups, stews, etc., and really delicious when pickled. The White Velvet is best of all, Okras, very early and distinct. The pods are round, smooth, and handsome; much larger than any other and of superior flavor and tenderness. Very prolific. Why not try Okra this year? You will surely like this splendid new variety. It is one of the good things no one should do without. Packet 5 cts.

NEW EARLY TREE TOMATO.

I think this more nearly resembles a tree than any other. It stands up like a tree, with a stiff, vigorous upright stalk — with fruit well up above the ground. Bears very abundant- ly, fruit good size, smooth, bright red color and of superior flavor. A valuable, curious acquisition very ornamental and useful. I am sure all will be pleased with it. Pt. 10c. 3 for 25.

If YOU CANNOT do me a greater favor than to show my Catalog to your friends, and allow them to use it for sending their orders, and getting up Clubs.

NEW CHINESE GIANT PEPPER.

The Chinese Giant is by all odds the largest and finest of Peppers. It is the grandest sort for salads — stuffed for manglees — or sliced and served like tomatoes. For market they are twice as profitable as any other, as they bring such fancy prices. Plants are stocky habit, about 2 feet high, and loaded with enormous fruits. 22 of these gigantic Peppers have been counted on a single plant. They are very mild, sweet as an apple and ripe early. Every one will want to plant it I am certain.

READ THE FOLLOWING FROM THE EDITOR OF THE RURAL NEW YORKER TO WHOM A FEW SEEDS WERE SENT FOR TRIAL.

"We grew the Chinese Giant Pepper with much pleasure, and found them veritable monsters. Their highly colored fruit is a pleasant addition to summer salads. The flesh is thick, tender, and sweet, without any burning taste. The plants grow finely, and the immense peppers—often more than 6 inches in diameter and depth make a very handsome show in the garden. The Chinese Giant is earlier than the Ruby King."

COOK'S PERFECTION PARSNIP.

Rightly named, and without doubt the finest strain of Parsnip that can be produced. It is a wonderful improvement on the old sorts, and no one desiring the best should fail to grow it. The roots are very smooth and handsome; tender, sugary, fine-grained and of most excellent quality. Customers are unanimous in praising it.

It produces enormous crops; and the short, thick roots are easily gathered. It is without question the best for home use, market, or cooking purposes.
